

[Dial-up Error 633: The Modem Is Already In Use Or Is Not Configured](#)

A composite image showing two Windows error dialog boxes. The top-left box is titled "Network Connection Prompt" and contains a yellow warning triangle icon, the text "Error 633: The modem (or other connecting device) is already in use or is not configured properly", and "Redial" and "Cancel" buttons. The top-right box is also titled "Network Connection Prompt" and contains a computer and modem icon, the same error text, and "Redial" and "Cancel" buttons. The bottom-right box is titled "Error Connecting to Internet MTS" and contains a yellow warning triangle icon, the text "Opening port...", "Error 633: The modem (or other connecting device) is already in use or is not configured properly.", a checkbox for "Enable logging" (which is unchecked), and "Redial" and "Close" buttons. The background is a blue gradient with vertical stripes. The text "UG2FIX" is visible in the bottom right corner of the screenshot area.

**How to Fix Modem Error 633 after Windows 10 Creators Update?**

[Dial-up Error 633: The Modem Is Already In Use Or Is Not Configured](#)
